FILLEY'S STOVES some little difficulty attended the sale and use at first, yet by always making Stoves and Castings of the best quality of Search Pig and Missouri Mountain Iron, they have proved to withstand fire better than any other Casting made in the western country. The furnace castings and hollow-ware parameterly, have been gradually increasing the manufacture on leating light and smooth, and something new, some little difficulty attended the sale and use them, and are using them now. And another advantage a purchaser will have in buying a St. Louis stove of us, he would not only getting a stove made of the best material in the world, but he can at any time get an odd piece or plate without any charge, by letting us know that such is wanted, as all our stoves are warranted, and, in case of imperfection, the article will be promptly made good to the purchaser,
